

SIX FIRST PRIZES FOR VALLEY RANCH Display of Fruit from "The Orchards" Captures State Fair Premium.

Yale, Texas, Oct. 25.—The lower valley captured six premiums on its fruit at the Dallas state fair. R. P. Cole, who is associated with J. J. Smith in the nursery business, went to the fair, taking with him several specimens of fruit from "The Orchards," the ranch owned by D. M. Payne, one mile west of Yale. He captured six first prizes.

"The Orchards" was formerly a part of J. J. Smith's ranch and was planted and cultivated by him until the past year, when Mr. Payne purchased the place. J. E. Watkins is the superintendent of the ranch and assisted Mr. Cole in selecting and preparing the fruit for exhibition.

Fred W. Malley of Austin, government nursery inspector, is in the valley visiting the various nurseries and orchards. He expressed himself as being surprised and delighted with the development of the valley. He said the conditions in this valley are such as to make it a famous fruit growing and shipping center.

Mr. and Mrs. James Allen have leased the Burgess place, Mr. Burgess having gone to Washington, D. C., for an extended stay.

A company of soldiers from Fort Bliss are in camp near here.

Wm. Davis of Socorro discovered two Chinamen in the bosque near his home. He captured them and brought them in to immigration inspector Gourley's home. Mr. Gourley being away from home on duty, the Chinamen were lodged in jail until his return.

LAGUNA COUNTRY GETS
SECOND RAIN IN MONTH.

Torreón Gun Club Inaugurated With
Creditable Initial Success. "Tour-
name" Is Planned

Torreón, Mexico, Oct. 25.—Torreón has received a steady downpour of rain, which continued for the greater part of a day. For the second time within 30 days the Laguna district has been given a thorough drenching, which is very unusual for this time of year. The showers of two weeks ago caused a flow in the river and it is estimated that 25 percent of the cotton growing section of the Laguna was thoroughly irrigated. The ground is now damp and if a good volume of water is received from the river the entire country will be irrigated.

The late fall corn and bean crops have been greatly aided by the falling rain and many stands which were counted as a total loss three weeks ago, will give a fair yield. The winter

WISDOM WORDS
A Physician on Food.

A physician of Portland, Oregon, has views about food. He says:

"I have always believed that the duty of the physician does not cease with treating the sick, but that we owe it to humanity to teach them how to protect their health, especially by hygienic and dietetic laws."

"With such a feeling as to my duty I take great pleasure in saying to the public that in my own experience and also from personal observation I have found no food to equal Grape-Nuts, and that I find there is almost no limit to the great benefit this food will bring when used in all cases of sickness and convalescence."

It is my experience that no physical condition forbids the use of Grape-Nuts. To persons in health there is nothing so nourishing and acceptable to the stomach, especially at breakfast, as to start the machinery of the human system on the day's work."

"In cases of indigestion, I know that a complete breakfast can be made of Grape-Nuts and cream and I think it is not advisable to overload the stomach at the morning meal. I also know the great value of Grape-Nuts when the stomach is too weak to digest other food."

"This is written after an experience of more than 20 years, eating all kinds of chronic and acute diseases, and the letter is written voluntarily on my part without any request for it."

Read the little book, "The Road to Wellville," in pgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Disappointment.

S. M. Kaufman, on the hill above Oper-
a drive, has been reduced to ashes. It
was a two-story frame and was built
rapidly. The origin of the fire is not
known. It was feared Mr. Kaufman
had been burned to death, but it was
learned later that he had left for a
trip. The property was partially in-
sured.

Coming all the way from New York
to meet and marry a man named Faltin,
with whom she became engaged
through correspondence, Mrs. J. M.
Reed had the disappointment of find-
ing anybody awaiting her. Having
applied to the police, she learned that
the groom to be had left before her ar-
rival. Mrs. Reed left for Phoenix in
search for Faltin.

At yet nothing definite has been
learned as to the fate of Thomas W.
Davis, who disappeared from Bisbee
three days ago, leaving a wife and an
infant child.

To the admiration of the medical
staff of the Calumet & Arizona hotel,
Hight Harper, a nine year old boy,
showed a stoical indifference to pain
while being operated on for appendi-
citis. Neither a word nor a groan was
uttered by him during the time he was
on the operating table.

The stone wall in the rear of the
Glasgow Woolen Mills store collapsed,
falling over the railroad track and
causing the embankment below to cave

SURVEY OF THE PROPOSED
HONDO CANAL TO BE MADE

Roswell, N. M., Oct. 25.—A survey is
to be made of the Hondo river from a
point a mile above the Diamond A
ranch to a point below the Hondo
reservoir, 12 or 14 miles in all.

The survey is to be embodied in the
report to be made to the board of
land and water at the request of the
proposed canal. The government has
decided to build to prevent the loss
of a large amount of water now lost
by disappearing through beds of por-
ous gravel laid bare in the bed of the
river by heavy floods a few
years ago.

C. M. Farnsworth, who bought an in-
terest in the Roswell Auto company
and its mail route between Roswell

of the column next to reading matter.

DUNCAN WANTS TO
BE COUNTY SEAT

Plano, Ariz., Oct. 25.—The proper
place for the seat of the new county of
Greenlee is at Duncan, the people
here all think. The train service at
Duncan, it is argued, is better for those
who would transact business at the
county seat than at any other town.

The people here are all in favor of
Duncan. This is a very important
canal of Col. Cody's is so successful

BUFFALO BILL
AS IRRIGATOR

Is Helping to Reclaim Land
on Which He Once
Fought Indians.

Maj. John M. Burke, the long-time
associate of Buffalo Bill, is in the city
and was much impressed by the sky-
scraper that Gen. Mills is erecting.

Naturally Buffalo Bill and the major
take an interest in the general pros-
perity of the country once so isolated,
from the fact that Gen. Mills is one of
Buffalo Bill's old commanders. For
him Buffalo Bill acted as guide in the
terra incognita, the country now
known as the Big Horn basin.

This section was isolated up to 1895,
when Buffalo Bill took up the first
canal and built it under the Carey and
land act. The country now is in a high
state of prosperity and a dam 324 feet
high has been erected there, and next
season there will be homes for 10,000
people to add to its present prosperity.

The major says: "This experimental
canal of Col. Cody's is so successful
that it gave a great impetus to irri-
gation in Wyoming."

Col. Cody is coming this year with
the exhibition of his "Wild
West" and Pawnee Bill's "Far East,"
and will open the El Paso fair.
